

CSR Procurement Assessment Report 2024 (China Business)

Pigeon Corporation
October 1, 2024

Pigeon has established the CSR Procurement Policy and CSR Procurement Guidelines as our basic approach to procurement activities in order to continue contributing to the "development of a sustainable society" as stated in the Pigeon ESG/SDGs Basic Policy. To advance procurement based on this Policy and these Guidelines, we conduct annual assessment surveys of our suppliers. The purpose of this assessment is to grasp the status of environmental, sustainability and governance (ESG) activities among suppliers and to recognize issues occurring in our supply chain.

We look forward to working with suppliers to correct the issues revealed by the assessment. By conducting this assessment and following it with improvement efforts as described above, we believe we can contribute to solutions for a range of social issues in collaboration with suppliers, building stronger relationships with them in the process.

Efforts Toward Improvement

We will provide suppliers who responded to the questionnaire with feedback on the following topics:

- Their own tabulation results
- Average score rates

At the same time, we will encourage efforts to improve items that are determined to be high-risk.

Future Plans

We will continue to conduct SAQ assessments and redouble our commitment to measures for improvement by providing support, such as offering advice on improvement, to suppliers considered to be at high risk or judged to need support in improving their conditions.

Going forward, we will intensify our efforts to build strong relationships of trust with suppliers and contribute to solutions to societal issues throughout its supply chain.
